White—What is the matter with Greene? I saw him just now, and he looks pretty bad.

Gray—Yes, poor fellow, he is suffering from overwork.

White—I wasn't aware that he ever did any work.

Gray—That's where you make a mistake. He was on the train the other day, and he tried to open three different car windows for as many different ladies—Boston Transcript.

## CRIME OR

'73 OUTDONE.

BRYAN ARGUMENTS CARRIED TO AN EXTREME AND REDUCED TO AN ABSURDITY.

Demonetization of Iron 8,000 Years Ago a Horrible Crime—Inflicted Inevitable Loss on Mankind—Itinalous Fall of Prices Can Be Stopped Only by Remonetizing Iron—Our Government Big Enough to Do the Job “Without Waiting for the Aid or Consent of Any Other Nation.” Would Give Us High Prices and Plenty of “Per Capita” Money.

SATURDAY, OCTOBER 10, 1890.

CAMPAIGN liars have yet three weeks to make sure of their admission tickets.

The Chicago Record suggests that Ayer and Pingree hold a joint debate with his platform.

THE Chicago Times Herald which has given every state worth having to McKinley this morning editorially announced that the battleground was Illinois and that that state would decide the election.

WHATEVER else you do be sure and vote for Ed Ferguson for sheriff. Even Democrats ought to and no doubt silver men will vote for him in recognition of the winning fight he put up for the nomination. He would make one of the best sheriffs Michigan ever had.

THERE is nothing that will make a man so narrow and mean as politics. People will get into discussion in their stores and even often in the church and lose their temper and their common sense. After election they feel ashamed of themselves. The kindest advice to be given is to keep calm. By abuse you will only make votes for the other side.

THE Chicago Record's postal card election seems doomed to be a fizzle. Up to the present time returns only from Cook county have been reported and these show that 75 per cent of Chicago people are for McKinley. No man who reads and observes can be led to believe that the election in November will give Bryan but 25 per cent of the vote polled in the windy city. The result of the postal card election promises to leave the election result as much of a mystery as ever.

### Bismarck Forgiven.

Bismarck could forgive, but he wished to do it after proper solicitation. At the beginning of the Danish war, Field Marshal Wrangel, who was at the head of the Prussian troops, was exceedingly annoyed, at one point, to be telegraphed not to advance further, and he returned a message telling King William that “these diplomats who spoil the most successful operations deserve the gallows.”

After that Bismarck ignored him completely, and one day they met at the king's table, where it was especially awkward to preserve a coldness.

Wrangel called everybody “du,” and presently he turned to Bismarck, who was seated next him, and said, “My son, ‘does not that forgive?’ ‘No,’ was the curt reply.

After a pause Wrangel began again, “My son, caust thou not forgive?” “With all my heart,” said Bismarck, and the breach was healed.

### A Trying Position.

Old Mrs. M—, who was seriously ill, found herself to be in a trying position, which she defined to a friend in these words:

“You see, my daughter Harriet is married to one of these homeopathic doctors and my daughter Kate to an allopath. If I call in the homeopath, my allopath son-in-law an his wife get mad, as if I call in my allopath son-in-law an his wife get mad, as if I go ahead an git well without either ‘em then they'll both be mad, so I don't see but I'd better die outright.”—Detroit Free Press.

To retain an abundant head of hair of a natural color to a good old age, the hygiene of the scalp must be observed. Apply Hall's Hair Renewer.

The City Steam laundry does more work than all other laundries in Berrien county combined. It is fine work that has built up the trade.

## For Lung Troubles

“Seven years ago, my wife had a severe lung trouble, which physicians called consumption. The cough was distressing and attended with spitting of blood. As doctors did not help her she tried

**AYER'S**  
Cherry Pectoral

and was surprised at the relief it gave. One bottle of this medicine cured her, and she is not the least doubt but Ayer's Cherry Pectoral saved her life.”—K. Morris, Memphis, Tenn.

## Is It Unreasonable

To believe that a store, which receiving its clothing direct from a factory owned by the same company, can undersell its competitors? This is just the way we are situated. Every cent's worth of Clothing handled in our store is made in our own factory and placed on our tables at manufacturer's prices. We can and will prove to everyone who will give us the opportunity that we can make them a saving of 25 to 33 1-3 per cent. on every article of Clothing purchased of us.

## STILL A REPUBLICAN

**Mayor John V. Starr Seriously Objects to Being Called a Repudiator.**

**SAYS THE PARTY BOLTED.**

**And That the Principles He Now Maintains Are Not New to Him.**

**Editor St. Joseph Journal:**—Last Wednesday's issue of your paper contained an attack on me, which is untrue—first in attributing the authorship of an article appearing in the Evening Press under the head of "A Lie Nailed." I am not disposed to question the truthfulness of the article, but I deny writing or dictating a single line or word it contained.

Second, your charge that I am a "vassalizing chief executive of the city and a traitor to my constituents," is false. I am yet true to the principles I advocated long before and at the time of my nomination and election as mayor, and not like many who are abusing and misrepresenting me, because I would not denounce my honest convictions and follow a party when it bolted its past principles, traditions and tenets, and repudiated its record of nearly a half century.

I am a republican, as I always have been, but I cannot commit myself to surrendering personal liberty and individual sovereignty by admitting that this country is not able and patriotic enough to declare for and maintain a financial policy of its own without the consent of any of the so-called "enlightened nations of the earth."

The imputation that I pledged or promised to support the republican nominee for president and the gold standard cannot be verified by a single public utterance by me, or the sworn testimony of one of my constituents, supporters or opponents.

I said that I would support the republican nominee and party candidates if he was favorable to the restoration of our constitutional coinage that existed prior to 1873, and the platform expressed a favorable recognition of silver.

No man's republicanism was ever questioned on account of being a bimetallist until the party was confiscated by the money changers and kings of fabulous wealth last June—the class of men whom Christ locked out of the temple.

It comes with poor grace from men who claim to be republicans, when they charge their former party associates as traitors, repudiators and anarchists, and almost in the same breath ask them to support the republican candidate, whose voice and vote for nearly twenty years supported every bill introduced in congress for the restoration of silver or its recognition as money in any form, and who by their own charges against bimetallists in this campaign, is only a reformed repudiator and anarchist.

JOHN STARR.

## FIVE YEARS.

**William Ricaby Makes the City a Better Offer.**

William and Robert Ricaby offered through the columns of the JOURNAL to erect two fine brick blocks providing the city will exempt the said buildings from taxation for the period of ten years. Today they make a better offer and say that they will put up the buildings if the taxes are omitted for only five years. They consider this a good offer and say that they think that the city will accept it.

### FLUNKED.

**The Benton Harbor Foot Ball Team Wouldn't Meet St. Joe.**

There was to have been a game of foot ball on the Twin City grounds this morning between the Benton Harbor High School and the St. Joseph High School teams, but it did not occur. It is claimed that the Benton Harbor team "flunked" on account of their overwhelming defeat a week ago. The game last Saturday stood 10 to 0 in favor of St. Joseph. The home team is in splendid trim and will meet the best teams in this part of the state during the foot ball season.

### H. W. DAVIS' ABILITY.

**It Has Been Recognized by the State Central Committee.**

Hardin W. Davis, who entered the campaign early, stumping in the interest of protection under the county committee, has been recognized as a speaker of unusual abilities and has been assigned work by the state central committee. His first appearance will be at Three Rivers October 19. October 20 he will speak at Mendon and October 21 at White Pigeon. The excellent service performed by Mr. Davis in the field with other experienced campaigners is an undeniable recommendation of his attainments. He has made a particular study of the money problem and is able to present it in an intelligent manner before any audience.

### Baths at Home.

The sick and well are cordially invited to see and use the Robinson's Thermal bath cabinet. No other bath needed. Can be used in any room at a cost of 5 cents per bath. I have references from good people. Gout and rheumatism positively cured. Louis C. Mudge, 244 Britain avenue. 31847

## A Woman Well Known Here Passes Away at Chicago.

Mrs. Kate Durand, formerly Miss Lightfoot, of this city, died at her home in Chicago at 9 a. m. today. She has been failing for a long time and with an ailment which baffled the skill of the best physicians in Chicago. The deceased lived in St. Joseph until her marriage which occurred several years ago. She is a sister to Mrs. M. C. Barnes. Her husband, George Durand, is still alive and she leaves no children. The remains will probably be brought to St. Joseph for burial.

## WATER RULES.

**Their Revision Recommended by the Board of Public Works.**

The board of public works, at a meeting held in its chamber in the city hall yesterday afternoon, had a thorough discussion of the water department and the result will be the presentation of a recommendation to the common council advising the revision of the rules and regulations governing that branch of the municipal organism.

The matter was introduced before Superintendent Kingsey, whose experience in this department enables him to determine the most approved way of conducting it. The present plan is far from satisfactory, the most glaring fault lying in the assessment of rates. It is not the purpose of the board to include in its recommendations a reduction in the water rates, but a more systematic method of fixing them and with this end in view a committee was appointed to draft a revision of the present water ordinance, the members being John Higman, Jr., G. E. Smith and E. L. Kingsley.

It was a demonstration the like of which has never before been seen in this country. It exceeded in numbers and it surpasses in significance any public procession that has marked the critical period of the Nation's history.

It was an army marching to the aid of a besieged country, where the enemy should have been the defenders. Its weapons are to be ballots, not bullets, but these softer missiles will be as effective in preserving the integrity of American institutions as were the lethal messengers sent by the men who marched in 1861.

The long line marched through the streets forming almost a canopy of flags.

The great buildings all along the route had flags flowing from every window and across the street were the immense sound-money banners announcing McKinley and Hobart as the candidates certain to bring about the return of prosperity.

The parade was easily the greatest of its kind ever witnessed in this country. No civic demonstration on any occasion has approached it. The lowest estimate placed on the number of those in line was 100,000, and some who claim to have made careful observation said the column passed a given point declared that at least 150,000 men were in line.

From the white-haired figure of General Stockton leading the parade proper to the last straggler file of his followers the idea of sound money and the preservation of the Nation's honor was not for an instant lagging.

Hon. Chauncey M. Depew spoke to an audience in the Coliseum that numbered perhaps 25,000 people. The immense hall, the scene of a different gathering just three months ago, was packed with humanity from ground floor to gallery. Mr. Depew characterized it as the largest political meeting ever held under one roof.

CHICAGO Record: It is estimated

that the wind blown into band instru-

ments in Chicago yesterday would have

wafted the whole fleet of Chicago to

Benton Harbor in two hours, had it

been properly applied.

NILES Star: Roman I. Jarvis, of

Benton Harbor, is a candidate for con-

gress on the silver ticket. He was

postmaster and President Cleveland

has seen fit to turn him out and put

Edgar Nichols, a bolter in his place.

NILES Sun: An unofficial statement

comes from Wabash that the Sunday

train on the Big Four will be discon-

tinued after next Sunday. This news

will be received with regret by the

newspaper dealers, who will be com-

YESTERDAY was the first time since

the fire that C. J. Brown has used THE

NEWS to advertise his special salve.

Today he sold butter and thought he

had an extra large supply. Before

9 o'clock this morning the butter was

all gone and there were several pages

of unilled orders. Mr. Brown tele-

graphed to Bangor for a second invoice

and hoped to receive several hundred

pounds by express this afternoon.

JENNINGS, the barber, is a member

of Bort's drum corps which went to

Chicago to play in the Chicago Day para-

de. He returned this morning and claims

the drum corps was used in an unfair

manner as they were promised

that if they went they could lead the

procession and when they found them-

selves in line they were about 10 miles

from the front. This so angered the elab-

orated drum corps that they took

their instruments to the boat dock and

took in the sights of Kohl &amp; Middle-

ton's gun museum.

COLOMA Courier: The removal of

Roman I. Jarvis from the postmaster-

ship of Benton Harbor should and

probably will increase his majority for

the office of representative to congress

from this district by at least five hundred

votes. This tyrannical act is an

object lesson in the relentless ven-

geance with which all opposition to

the holy gold idea will be pursued

when once its cupped tentacles are

firmly fixed upon the people, and will

no doubt be seized upon and cited as a

precedent to justify revenge by

smaller-fry gold-standard advocates

when other serfs betray an independ-

ence of thought and action.

The curious affection for old Cremona

violin, tenor and bass is by no means

a modern fancy. The Stradivarius vi-

olin, which my eccentric father gave me

when I was 16 years of age, was priced

at 100 guineas in 1894. But, to go still

farther back, we were told by the Eng-

lish newspapers that in September,

1778, there was sold by auction at Dres-

den the famous violin of Count Tra-

mamondi, grand equerry to the Em-

peror Charles VI, which he had pur-

chased direct from the celebrated Tyro-

lano maker, Jacob Stainer. He paid

him down in cash 70 golden crowns

and undertook to provide the vender

as long as he lived with a good dinner

every day, as well as 100 Scorsa a

month in cash and every year a new

coat, with golden brandenburgha, two

oaks of beer, lighting and fuel, and,

in case he should marry, as many hars-

es as he might require, with 12 basket-

es of fruit annually for himself and as

many for his old nurse (housekeeper),

CAMPAIGN Bars have yet three weeks to make sure of their admission to hives.

THE Chicago Record suggests that Mayor Pingree hold a joint debate with his platform.

THE Chicago Times Herald which has given every state worth having to McKinley this morning editorially announced that the battleground was Illinois and that that state would decide the election.

WHATEVER else you do be sure and vote for Ed Ferguson for sheriff. Even democrats ought to and no doubt silver men will vote for him in recognition of the winning fight he put up for the nomination. He would make one of the best sheriffs Michigan ever had.

THERE is nothing that will make a man so narrow and mean as politics. People will get into discussion in their stores and even often in the church and lose their temper and their common sense. After election they feel ashamed of themselves. The kindest advice to be given is to keep calm. By abuse you will only make votes for the other side.

THE Chicago Record's postal card election seems doomed to be a fizzle. Up to the present time returns only from Cook county have been reported and these show that 75 per cent of Chicago people are for McKinley. No man who reads and observes can be lead to believe that the election in November will give Bryan but 25 per cent of the vote polled in the windy city. The result of the postal card election promises to leave the election result as much of a mystery as ever.

Bismarck forgave. Bismarck could forgive, but he wished to do it after proper solicitation. At the beginning of the Danish war, Field Marshal Wrangel, who was at the head of the Prussian troops, was exceedingly annoyed, at one point, to be telegraphed not to advance further, and he returned a message telling King William that "those diplomats who spoil the most successful operations deserve the gallows." After that Bismarck ignored him completely, and one day they met at the king's table, where it was especially awkward to preserve a coldness. Wrangel called everybody "du," and presently he turned to Bismarck, who seated next him, and said, "My son, cañst thou not forget?" "No," was the curt reply. After a pause Wrangel began again, "My son, cañst thou not forget?" "With all my heart," said Bismarck, and the bread was heated.

A Trying Position.

Old Mrs. M——, who was seriously ill, found herself to be in a trying position, which she defined to a friend in words:

"You see, my daughter Harriet is married to one of these homeopathic doctors and my daughter Kate to an almanac. If I call in the homeopath, my almanac son-in-law and his wife git mad at me if I call in my almanac son-in-law my homeopath son-in-law an his wife git mad, an if I go ahead an git well without either of 'em then they'll both be mad, so I don't see but I'd better die outright!"—Detroit Free Press.

CRIME OF  
'73 OUTDONE.

BRYAN ARGUMENTS CARRIED TO AN EXTREME AND REDUCED TO AN ABSURDITY.

Demonetization of Iron 2,000 Years Ago a Horrible Crime—Inflicted Inevitable Loss on Manhood—Injustices of Prices Can be Stopped Only by Remonetizing Iron—Our Government Big Enough to do the Job "Without Waiting for the Aid or Consent of Any Other Nation" Would Give Us High Prices and Plenty of "Per Capita" Money.

The following clever satire on "the crime of '73" and the whole silverite argument was written some time ago by Alex P. Hall of Atlanta, Ga. It is considered so good that some papers have printed it several times, and millions of copies of it are being distributed in pamphlet form:

Having been deeply impressed by the arguments of Judge Crisp, Bryan, Stewart, Jones and other silver leaders, and especially grieved, shocked and horrified by the "awful crime of 1873" as so justly depicted daily in the columns of the Atlanta Constitution and other silver organs, I have changed my views on the money question and am ready to maintain the propositions following in joint debate or newspaper controversy:

I accept the arguments of the advocates of silver and agree with their remedy as far as it goes. However, it does not go far enough. Let us have plenty of remedy—in fact, enough to make debt and poverty things of the past—relief of the dark ages. I am in favor of the free and unlimited coinage of pig iron at a ratio of 10 to 1 with gold by the United States alone, independently of all nations, and can prove by the best authority obtainable that such a policy on the part of the United States will "raise prices," "put plenty of money in circulation" and give the "honest debtor a chance to pay his debts," thereby making the whole country prosperous.

Now, in the first place, it may be urged by some "who do not understand the subject of standards of value" that free coinage for iron would not raise its price to a ratio of 10 to 1 with gold. To them I reply that "the stamp of this government" and the "legal tender qualities" of the iron dollar would instantly make the bullion value of pig iron the same as the mint value, "for who would part with an ounce of this precious metal for anything less than the mint value?" (Stewart, Jones and Bryan.)

Again, it may be urged that our mints would be overcrowded with pig iron. I reply that, "the price of pig iron having been raised from \$7.50 a ton to a ratio of 10 to 1 with gold the world over, no one would especially care to carry it to the mints, since the mint price could be obtained anywhere in the open market" (Atlanta Constitution.)

Next, it may be urged that gold and silver would go out of circulation. I reply, first, "This is a mere assumption of the tools of the money power which they cannot verify" (Atlanta Constitution); second, "Suppose gold and silver do go out of circulation, is there not plenty of pig iron to take their place and give the people plenty of money?" (Bryan), and, third, "Such an assumption mixes the idea of circulating medium and standard of value, that gold and silver would still be potential money metals, though not in circulation, and would tend their help toward raising prices and causing general prosperity" (Crisp).

Then, again, it may be urged against the pig iron standard of value that wages would not rise in proportion to prices. The reply is, "Wages would be compelled to rise, since no man would be fool enough to work for \$1 a day who could make \$1.00 per day picking up rusty nails and old horseshoes and carrying them to the mint for coining" (Hall).

In addition it may be urged that the money power, by the "Wall street sharks" and the "Bond street Shylocks," that we could not alone go on a pig iron basis without an international agreement. "To such disaster as dare to lay a limit to the power of the American people to do what they please, independently of all nations, I hurl their cowardice and lack of patriotism back in their faces" (Bryan).

The "crime" of demonetizing pig iron took place about 2,200 years ago, when certain "goldsmiths" and "silverites," in order to increase the purchasing power of their ill gotten wealth, secretly and "like thieves in the night" got the demonetization act passed, regarding the good old free coining act of Lycurgus, "the friend of our ancestors'大陆." "Today China is the only country on earth honest enough to coin iron, and there the happy laborer can carry home the wages of his honest toil in a wheelbarrow" (Atlanta Constitution).

A rainous fall in prices followed the demonetization of iron and has continued for upward of 2,000 years. I have calculated the losses entailed upon the honest people of this world by that ruthless act, but the figures are so enormous I fear a revolution will ensue if the people learn how greatly they have been robbed. But facts are facts, and the best way to right a wrong is to meet it squarely. "That loss is \$21,000,000,000,000,000,000,000,000,000,000,000" (Coin's Financial School).

In conclusion, I insist that the free coining of pig iron will do everything that is claimed for silver and infinitely more. The people will be rich and prosperous. The once poor man can pay his debts with his old stove. Railroads can declare dividends on old rails and worn out rolling stock. The small boy can pick up old nails and horseshoes enough to support his family. In fine, poverty and debt can no longer exist.

For  
Lung  
Troubles

"Seven years ago, my wife had a severe lung trouble, which physicians called consumption. The cough was distressing and attended with spitting of blood. As doctors did not help her she tried

AYER'S Cherry Pectoral

and was surprised at the relief it gave. One bottle of this medicine cured her, and she has not the least doubt but Ayer's Cherry Pectoral saved her life." —K. Morris, Memphis, Tenn.

Perfect satisfaction given or no pay. Inspection solicited.

Again, it may be urged that our mints would be overcrowded with pig iron. I reply that, "the price of pig iron having been raised from \$7.50 a ton to a ratio of 10 to 1 with gold the world over, no one would especially care to carry it to the mints, since the mint price could be obtained anywhere in the open market" (Atlanta Constitution.)

## ST. JOSEPH.

### STILL A REPUBLICAN

Mayor John V. Starr Seriously Objects to Being Called a Repudiator.

### SAYS THE PARTY BOLTED.

And That the Principles He Now Maintains Are Not New to Him.

Editor St. Joseph JOURNAL:—Last Wednesday's issue of your paper contained an attack on me, which is untrue—first in attributing the authorship of an article appearing in the Evening Press under the head of "A Lie Nailed." I am not disposed to question the truthfulness of the article, but I deny writing or dictating a single line or word it contained.

Second, your charge that I am a "vassalizing chief executive of the city and a traitor to my constituents," is false. I am yet true to the principles I advocated long before and at the time of my nomination and election as mayor, and not like many who are abusing and misrepresenting me, because I would not denounce my honest convictions and follow a party when it bolted its past principles, traditions and tenets, and repudiated its record of nearly a half century.

I am a republican, as I always have been, but I cannot commit myself to surrendering personal liberty and individual sovereignty by admitting that this country is not able and patriotic enough to declare for and maintain a financial policy at its own without the consent of any of the so-called "enlightened nations of the earth."

The imputation that I pledged or promised to support the republican nominee for president and the gold standard cannot be verified by a single public utterance by me, or the sworn testimony of any of my constituents, supporters or opponents. I said that I would support the republican nomination and party candidate if he was favorable to the restoration of our constitutional coining that existed prior to 1873, and the platform expressed a favorable recognition of silver.

No man's republicanism was ever questioned on account of being a bimetalist until the party was confiscated by the money changers and kings of fabulous wealth last June—the class of men whom Christ locked out of the temple.

It comes with poor grace from men who claim to be republicans, when they charge their former party associates as traitors, repudiators and anarchists, and almost in the same breath ask them to support the republican candidate, whose voice and vote for nearly twenty years supported every bill introduced in congress for the restoration of silver or its recognition as money in my form, and who by their own charges against bimetalists in this campaign, is only a reformed repudiator and anarchist.

## FIVE YEARS.

William Ricaby Makes the City a Better Offer.

William and Robert Ricaby offered through the columns of the JOURNAL to erect two fine brick blocks providing the city will exempt the said buildings from taxation for the period of ten years. Today they make a better offer and say that they will put up the buildings if the taxes are omitted for only five years. They consider this a good offer and say that they think that the city will accept it.

### FLUNKED.

The Benton Harbor Foot Ball Team Wouldn't Meet St. Joe.

There was to have been a game of foot ball on the Twin City grounds this morning between the Benton Harbor High School and the St. Joseph High School teams, but it did not occur. It is claimed that the Benton Harbor team "flunked" on account of their overwhelming defeat a week ago. The game last Saturday stood 10 to 0 in favor of St. Joseph. The home team is in splendid trim and will meet the best teams in this part of the state during the foot ball season.

H. W. DAVIS' ABILITY.

It Has Been Recognized by the State Central Committee.

Hardin W. Davis, who entered the campaign early, stumping in the interest of protection under the county committee, has been recognized as a speaker of unusual abilities and has been assigned work by the state central committee. His first appearance will be at Three Rivers October 19. October 20 he will speak at Mendon and October 21 at White Pigeon. The excellent service performed by Mr. Davis in the field with other experienced campaigners is an undeniable recommendation of his attainments. He has made a particular study of the money problem and is able to present it in an intelligent manner before any audience.

### Baths at Home.

The sick and well are cordially invited to see and use the Robinson's Thermal bath cabinet. No other bath needed. Can be used in any room at a cost of 5 cents per bath. I have references from good people. Gout and rheumatism justly cured. Louis C. Mudge, 263 Britain Avenue. 316f

## MRS. DURAND DEAD.

A Woman Well Known Here Passes Away at Chicago.

Mrs. Kate Durand, formerly Miss Lightfoot, of this city, died at her home in Chicago at 9 a. m. today. She has been failing for a long time and with an ailment which baffled the skill of the best physicians in Chicago. The deceased lived in St. Joseph until her marriage which occurred several years ago. She is a sister to Mrs. M. C. Barnes. Her husband, George Durand, is still alive and she leaves no children. The remains will probably be brought to St. Joseph for burial.

### OVER 100,000 APPEAR IN LINE

It Was a Demonstration For the Preservation of National Integrity.

CHICAGO, Oct. 10.—In testimony of their love for the honor of the Nation, and of their firm purpose to keep it stainless, more than 1,000,000 citizens of Chicago marched yesterday in the business men's sound money parade.

Above them floated, in all its starry beauty, the American flag, which, during the hundred years of the republic, has never been touched by dishonor.

In defense of that flag to save it from the polluting hand of repudiationists, who threaten it with disgrace, the column that marched in civic peacefulness would as promptly answer the call of sterner duty, and, instead of the bright regalia which they wore, would carry the grim implements of war.

It was a demonstration like of which has never before been seen in this country. It exceeded in numbers and it surpasses in significance any public procession that has marked the critical period of the Nation's history.

It was an army marching to the aid of a besieged country, where the enemy should have been the defenders. Its weapons are to be bullets, not bullets, but these softer missiles will be as effective in preserving the integrity of American institutions as were the lethal messengers sent by the men who marched in 1861.

The long line marched through the streets forming almost a canopy of flags. The great buildings all along the route had flags flying from every window and across the street were the immense sound-money banners announcing McKinley and Hobart as the candidates certain to bring about the return of prosperity.

The parade was easily the greatest of its kind ever witnessed in this country. No civic demonstration on any occasion has approached it. The lowest estimate placed on the number of those in line was 100,000, and some who claim to have made careful observation as the column passed a given point declared that at least 160,000 men were in line.

From the white-haired figure of General Stockton leading the parade proper to the last straggler file of his followers the idea of sound money and the preservation of the Nation's honor was not for an instant forgotten.

Bon. Chuncey M. Depew spoke to an audience in the Coliseum that numbered perhaps 25,000 people. The immense hall, the scene of a different gathering just three months ago, was packed with humanity from ground floor to gallery. Mr. Depew characterized it as the largest political meeting ever held under one roof.

## AN ARMY OF PEACE

It invaded The Thoroughfares of Chicago Yesterday Morning

### OVER 100,000 APPEAR IN LINE

It Was a Demonstration For the Preservation of National Integrity.

CHICAGO, Oct. 10.—In testimony of their love for the honor of the Nation, and of their firm purpose to keep it stainless, more than 1,000,000 citizens of Chicago marched yesterday in the business men's sound money parade.

Above them floated, in all its starry beauty, the American flag, which, during the hundred years of the republic, has never been touched by dishonor.

In defense of that flag to save it from the polluting hand of repudiationists, who threaten it with disgrace, the column that marched in civic peacefulness would as promptly answer the call of sterner duty, and, instead of the bright regalia which they wore, would carry the grim implements of war.

It was a demonstration like of which has never before been seen in this country. It exceeded in numbers and it surpasses in significance any public procession that has marked the critical period of the Nation's history.

It was an army marching to the aid of a besieged country, where the enemy should have been the defenders. Its weapons are to be bullets, not bullets, but these softer missiles will be as effective in preserving the integrity of American institutions as were the lethal messengers sent by the men who marched in 1861.
